<h1>MY GOALS AND PLAN OF MY WEBSITE</h1>
<h1>BASED ON MY LEARNING IN W3SCHOOLS</h1>

<h1>GOALS:</h1>
<p>Educational Hub:</p>

<p>Provide a centralized platform for sharing knowledge and resources based on the learning acquired
from W3Schools.
Cater to individuals seeking information on web development, programming, and related topics.</p>

<p>User-Friendly Experience:</p>

Design an intuitive and responsive website interface to enhance user experience across various devices.
Implement clear navigation and a well-organized structure for easy access to educational content.

<p>Content Quality:</p>

Ensure the accuracy and relevance of the content by cross-referencing with reputable sources.
Regularly update materials to reflect the latest industry standards and best practices.

<h1>PLANS</h1>
<p>Domain and Hosting:</p>

Choose a suitable domain name that reflects the website's purpose and brand.
Select a reliable hosting service to ensure optimal performance and minimal downtime.

<p>Website Architecture:</p>

Plan and design a clear site structure, considering the main categories and subtopics.
Create wireframes to visualize the layout and flow of the website.

<p>Content Creation:</p>
Develop comprehensive educational content based on W3Schools' curriculum.
Organize materials into logical sections and ensure proper attribution to W3Schools.
